

Cybersecurity for Medtech and Pharma

Secure your regulated digital future: Protect sensitive data, ensure compliance and mitigate risks!

EXCO's integrated cybersecurity approach integrates information security, cybersecurity, CSV, and compliance - bridging the gap between regulatory affairs and software development and testing.

Consulting and Insights

We provide expert guidance in all aspects of cybersecurity - from infrastructure to device.

- ✓ Stakeholder interview
- ✓ Checklists and gap analysis
- ✓ Remediation roadmap

Risk Analysis and Assessment

We deliver targeted security risk assessments for medical technology and pharma.

- ✓ Threat modeling
- ✓ Risk matrix creation
- ✓ Severity evaluation

Measures and Implementation

We support you in implementing identified recommendations to mitigate risks.

- ✓ Process documentation
- ✓ Integration into QMS
- ✓ Ensuring NIS-2 compliance

EXCO ensures reliable, compliant, and secure IT performance in regulated sectors.

Cybersecurity for Medtech and Pharma

Secure your digital future

Our Data Protection Services

Cybersecurity Assessments

Comprehensive evaluation based on IEC 81001-5-1, ISO 27001, BSI IT-Baseline Protection standards.

NIS2 GAP Analysis

We identify compliance gaps and provide a tailored remediation roadmap to achieve organizational resilience.

Risk Management

Threat modeling and risk evaluation using STRIDE methodology and NIST CVSS scoring to prioritize and mitigate vulnerabilities.

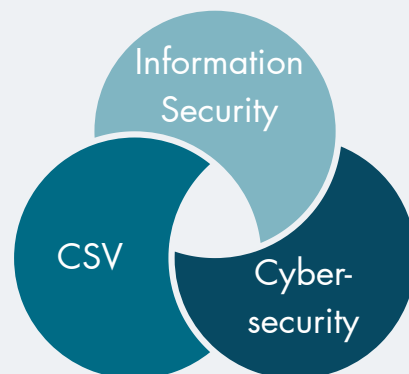

Regulatory Documentation

We deliver and maintain regulatory files: SOPs, validation plans, procedures, strategy, and cybersecurity.

Why Choose EXCO

- ✓ Integrated security within CSV lifecycle
- ✓ Cross-functional delivery across regulatory affairs and software development
- ✓ Specialized in medtech and pharma
- ✓ ISO 9001 and ISO 13485 certified
- ✓ Since 1994 partner for start-ups to enterprises

About EXCO

EXCO is an owner-managed technical service provider for development, production, testing, and quality assurance. With innovative solutions, we support your development activities and ensure the quality and timely delivery of your projects.

More than 200 employees work at 8 locations across Germany and in Switzerland, serving clients in regulated industries.
